

LITERATURE SOURCES  
OIL AND GAS IMPACTS ON WILDLIFE IN NORTH DAKOTA

On NDGFD website:

North Dakota Game and Fish Department. 2011. Potential Impacts of Oil and Gas Development on Selected North Dakota Natural Resources. 120 pp. References ~220 published scientific articles on oil/gas impacts in other states and Canada. Search for Oil and Gas Impacts.

University of Alberta, ND Game and Fish Department, and University of Freiberg. 2014. An Evaluation of historical mule deer fawn recruitment in North Dakota. 83 pp. Search for Mule deer recruitment.

ND Game and Fish Department and ND Petroleum Council. Recommended Practices for Reducing Oil and Gas Impacts to Wildlife.

ND Game and Fish Department. 2014. Management Plan and Conservation Strategy for Greater Sage Grouse in North Dakota

South Dakota State University. Habitat Selection by Greater Sage Grouse within Oil and Gas Development Areas in North Dakota and Montana

Other Agencies:

Kevin Sedivec et al. 2014. Successful Reclamation of Lands Disturbed by Oil and Gas development and Infrastructure Construction. NDSU Extension Service, R 1728. 15 pp. Very general, no detail on specific recommendations.

Western Association of Fish and Wildlife Agencies. 2011 Energy Development Guidelines for Mule Deer. 27 pp.

McEnroe and Sapa. 2011. Observations and Recommendations to Reduce Fish and Wildlife Impacts from Oil and Gas Development. North Dakota Chapter of The Wildlife Society. 20 pp. available on NDCTWS website

Mike McEnroe. Oct. 2014. Impacts from Oil Development on Wildlife and Natural Resources in North Dakota. Presented at TWS 21<sup>st</sup> Annual Conference, Pittsburgh, PA. Available on TWS website to TWS members

Popular press:

McEnroe and Sapa. Sept. 2011. Oil Patch Wildlife, Hunting and Fishing in Trouble. Dakota Country magazine. pp 74-82.

\_\_\_\_. Sept. 2012. Revisiting the Bakken Oil Patch. pp 94-99 in Dakota Country magazine.

\_\_\_\_. Sept 2013. Back to the Patch. pp 94-98 in Dakota Country magazine.

\_\_\_\_. Sept 2014. Spills, spills, and more spills. pp 80-85 in Dakota Country magazine.

Dakota Country magazine in general has several oil and gas impact related articles each month.

North Dakota Industrial Commission:

Oil and Gas Division website: Look for Director's Cuts; two page monthly reports on oil/gas activity in ND; # of wells, drilling rigs, oil and gas production, etc.

Recent presentations; talks given by OGD staff showing maps, diagrams, and state statistics on the oil/gas industry, projections for the future. Both these sources are good data on the oil and gas industry in ND.

North Dakota Department of Health website:

Look under Environmental Incident Report; list contained and non-contained spills/incidents. 82 non-contained incidents in 2016 as of March 28, 2016.

Covenant Consulting Group:

Rod Backman. 2016. Stakeholder Assessment of the North Dakota Badlands and Little Missouri River Valley. 54 pp. With appendices, 142pp.

Available at [www.NDstakeholders.org](http://www.NDstakeholders.org)

Hard to Find:

National Park Service. 2012. National Parks under Siege: North Dakota Energy Development. 12 pp. Not for publication, internal report.
